Hello

I have no intention of screening a documentary on the Arms Deal because I never made one.

I made a documentary for the SABC's Truth Be Told series called Project Spear that deals with apartheid corruption and latter day consequences.

Your letter has been noted and I will not be screening this film at the Franschhoek Literary Festival tomorrow.

I have been writing to the SABC for many months now. They have showed no interest in screening this film, made with public funds. It was on the schedule last year but was taken off with no public explanation.

The last I heard from the SABC I was given an undertaking that they were prepared to sell the rights. I was told that a Business Plan was doing the rounds at the SABC and that I would be able to buy the rights for Project Spear. Could you please ask your client what has happened to these negotiations. We have been raising money to buy the rights but all my attempts to make progress with this issue has met with silence since the time when I was told that they were preparing the business plan for the sale.

Sincerely,
Sylvia Vollenhoven
